

Colt Frankfurt 3 Data Centre

Data centre specification

Colt Frankfurt 3 Data Centre

Powered by 32MW

New facility underway

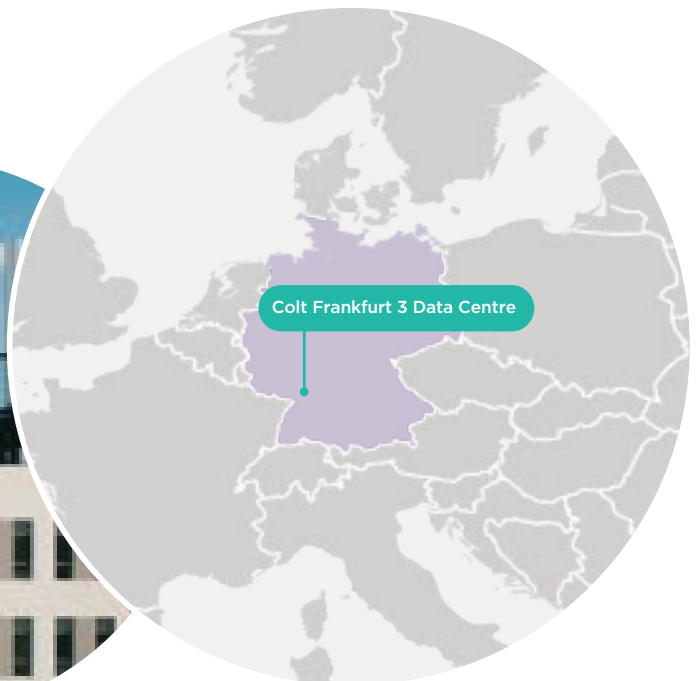

Colt Frankfurt 3 Data Centre has been designed to a Colt tier 3 specification. On completion, it will deliver 32MW of IT power across a gross floor area of 17,500m².

Located in Sossenheim, this site is in an area where there has been significant investment in digital infrastructure. The high concentration of fibre routes and proximity of several other data centres offers excellent connections to carrier networks.

Built to satisfy the growth of cloud technology and the recent surge in AI demand, Colt Frankfurt 3 Data Centre offers scalable capacity to support high performance computing (HPC) and increasing IT workloads.

Service excellence

Our team is responsible for the entire design, build, and operation of our Colt Frankfurt 3 Data Centre. This includes management of the data halls, capacity management, security, energy procurement and the programme of planned preventative and corrective maintenance work. With a single point of contact, you can be sure to receive the highest level of service to support your data centre needs 24/7, 365 days a year.

Facility Overview

- Gross floor area of 17,500m²
- 9 x 1,000m² data halls
- Technical basement + 3 x data hall floors
- Concrete superstructure and external walls
- Colt tier 3
- Office facilities
- Parking facilities

Power Capacity

- 32MW of IT
- 3.76kW/m² average power density
- 3N/4 (N+1) DR UPS
- N+N Electrical Distribution

Connectivity

- Carrier neutral
- Dark fibre available
- Multiple, diverse entry points into data centre
- Alternate carrier routing where feasible

Environmentals

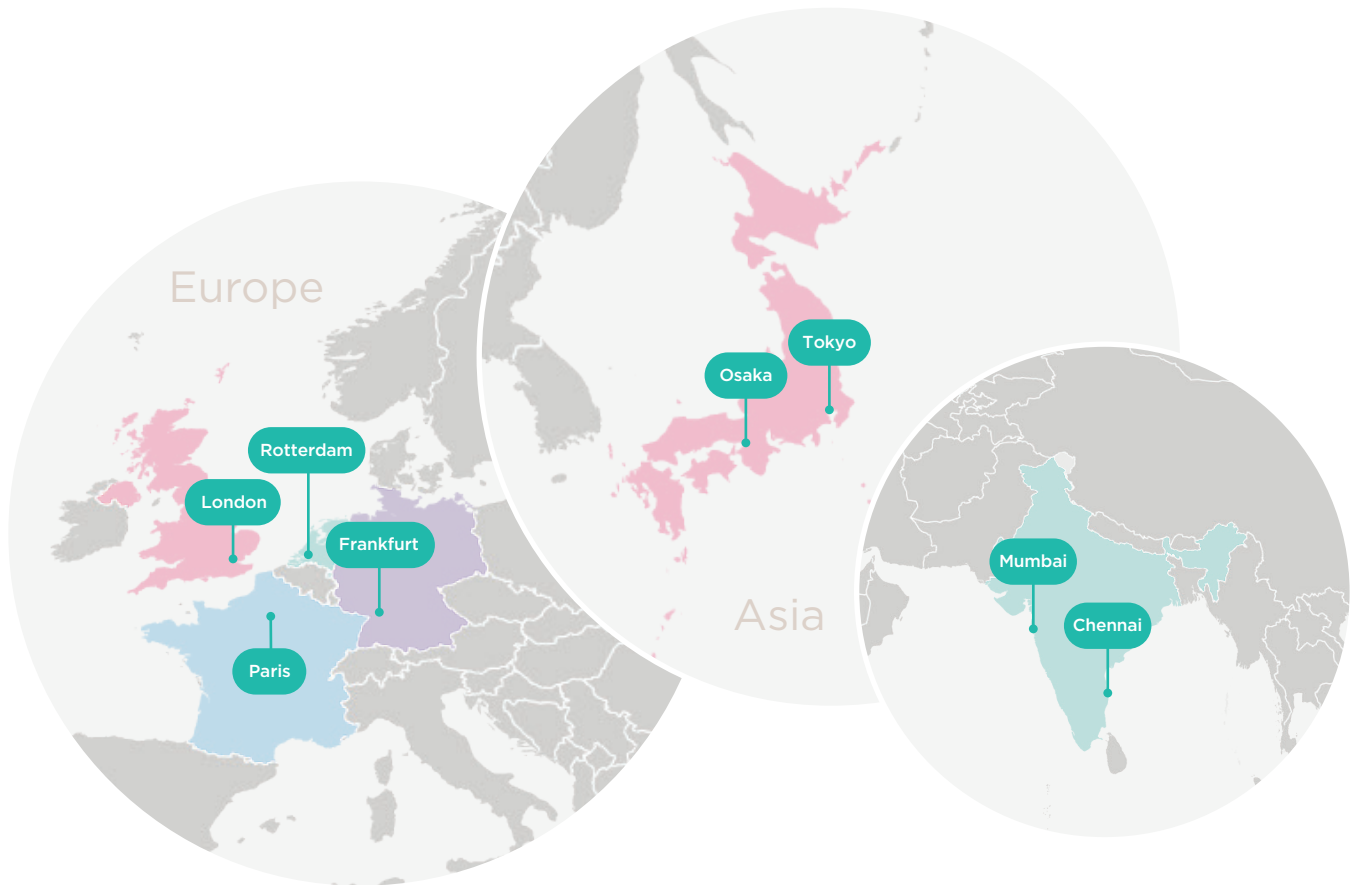

- Close to Frankfurt International Airport
- No earthquake or flight path risk
- No flood risk designation by Environmental Agency
- Science based sustainability targets

Security

- 24/7 onsite security, monitored by multiple guards
- Photo badge card access system
- Secure 2 door 'mantrap' main entrance revolving door
- Door opening alarm
- Central alarm monitoring
- Complete CCTV coverage
- ISO 27001 certified

📷 Colt Data Centre Services

Colt DCS provides true service and operational excellence in the sustainable design, build, delivery and operational management of hyperscale data centres across Europe and APAC. We provide data centre solutions to hyperscale and large enterprise customers across 16 state-of-the-art-carrier neutral data centres spanning 8 cities.

Our hyperscale and colocation solutions allow our customers freedom to plan effectively for the growth of their business, knowing that their data centre strategy is ready for the demands of tomorrow.

We have over 25 years of experience in the industry, delivering on our vision of being the most trusted and customer centric data centre operator in the market. We put environmental awareness at the heart of everything we do because we know it's the right thing to do for our planet. That's why we're taking the ownership to reduce our environmental impact globally and make sustainability a key strategic driver.

As part of our sustainability journey, Colt DCS has set comprehensive near-and long-term Science Based Targets to cut our emissions in line with the SBT's latest Net Zero Standard.
